About Us

Welcome to Dr. Bhola Health Care, a distinguished healthcare provider committed to delivering outstanding medical services. We recognize the intrinsic value of your health and are fully devoted to offering the highest standard of care. Our team of seasoned professionals, alongside state-of-the-art facilities, ensures your well-being and tranquility. We invite you to explore our comprehensive range of healthcare services, cementing our position as the preferred choice for both individuals and families alike.

Dr. Bhola Health Care deals with B2B Business Module in favour of "MANOPRAVA PVT. LTD". As a company, our primary focus is on providing healthcare services to industries and corporations, facilitating their CSR/Health safety-related initiatives with utmost efficiency through well-trained staff. Our unwavering mission is to deliver superior service quality to our esteemed clients.

At Dr. Bhola Health Care, your health is our paramount concern. Our unwavering commitment to excellence, comprehensive healthcare services, holistic approach to well-being, and compassionate patient support enable us to deliver exceptional care to each individual we serve. We take pride in earning your trust with your well-being and invite you to experience the profound impact of our healthcare services. To schedule an appointment or to gain deeper insights into our offerings, kindly reach out to us today. Together, let's shape a healthier and brighter future.

Our Clients

Collab With Hospitals

Client's Testimonials

At Dr. Bhola Health Care, our commitment to providing exceptional health services is reflected in the experiences of our satisfied clients. Here's what they have to say about their journey with us: Join the ranks of our satisfied clients and experience the remarkable difference that Dr. Bhola Health Care can make in your occupational health journey. Your well-being is our priority, and we're dedicated to helping you thrive.

My first interaction with dr.bhola and his team when I was unconscious after a murderous attack on my life in TSML Campus at Sukinda. Dr.Bhola and his team, with a meager medical resource at his disposal, provided the first aid and prepared me to be transported to a better medical facility at Cuttack.

I got my sense after four days and a second life after a few surgeries. I owe my life to him and his team of Dr. Bhola Health Care for their support, during a few golden hours which I had in hand. Keep doing good work...Dr.Bhola Health Care

CHANDAN KUMAR DAS
Principal , Stewart School , Sukinda
Tata Chromatic Mines Campus

I cannot express enough gratitude for the exceptional COVID health services provided to Indian Metals & Ferro Alloys Limited (IMFA) plant during 2 Covid challenging times. The Dr. Bhola Health Care trained and well experienced staff demonstrated utmost professionalism, compassion, and dedication in caring for patients. Their tireless efforts in ensuring our safety and well-being are truly commendable. Thanks to their expertise and support. I highly recommend their services to anyone in need, as they are a shining example of excellence in healthcare service

G.SARADA PRASAD RAO
DY.General Manager (HR and Administration)
Indian Metals & Ferro Alloys Limited (IMFA)

Occupational Health

Occupational health is a vital discipline that places a high priority on the health, safety, and well-being of employees within the workplace. Through the implementation of comprehensive strategies and practices, organizations can cultivate a work environment that not only safeguards employees from harm but also fosters their overall health and productivity. Emphasizing occupational health yields mutual benefits, positively impacting both employees and organizations alike. Industrial health, also known as occupational

l health, assumes a pivotal role in ensuring the well-being and safety of workers across diverse industries. Its primary focus lies in promoting and preserving the physical, mental, and social health of employees within their respective work environments. The significance of industrial health can be succinctly summarized in the following

key points: ensuring worker safety, facilitating health promotion, preventing diseases, adhering to regulations, and implementing rehabilitation and return-to-work programs.

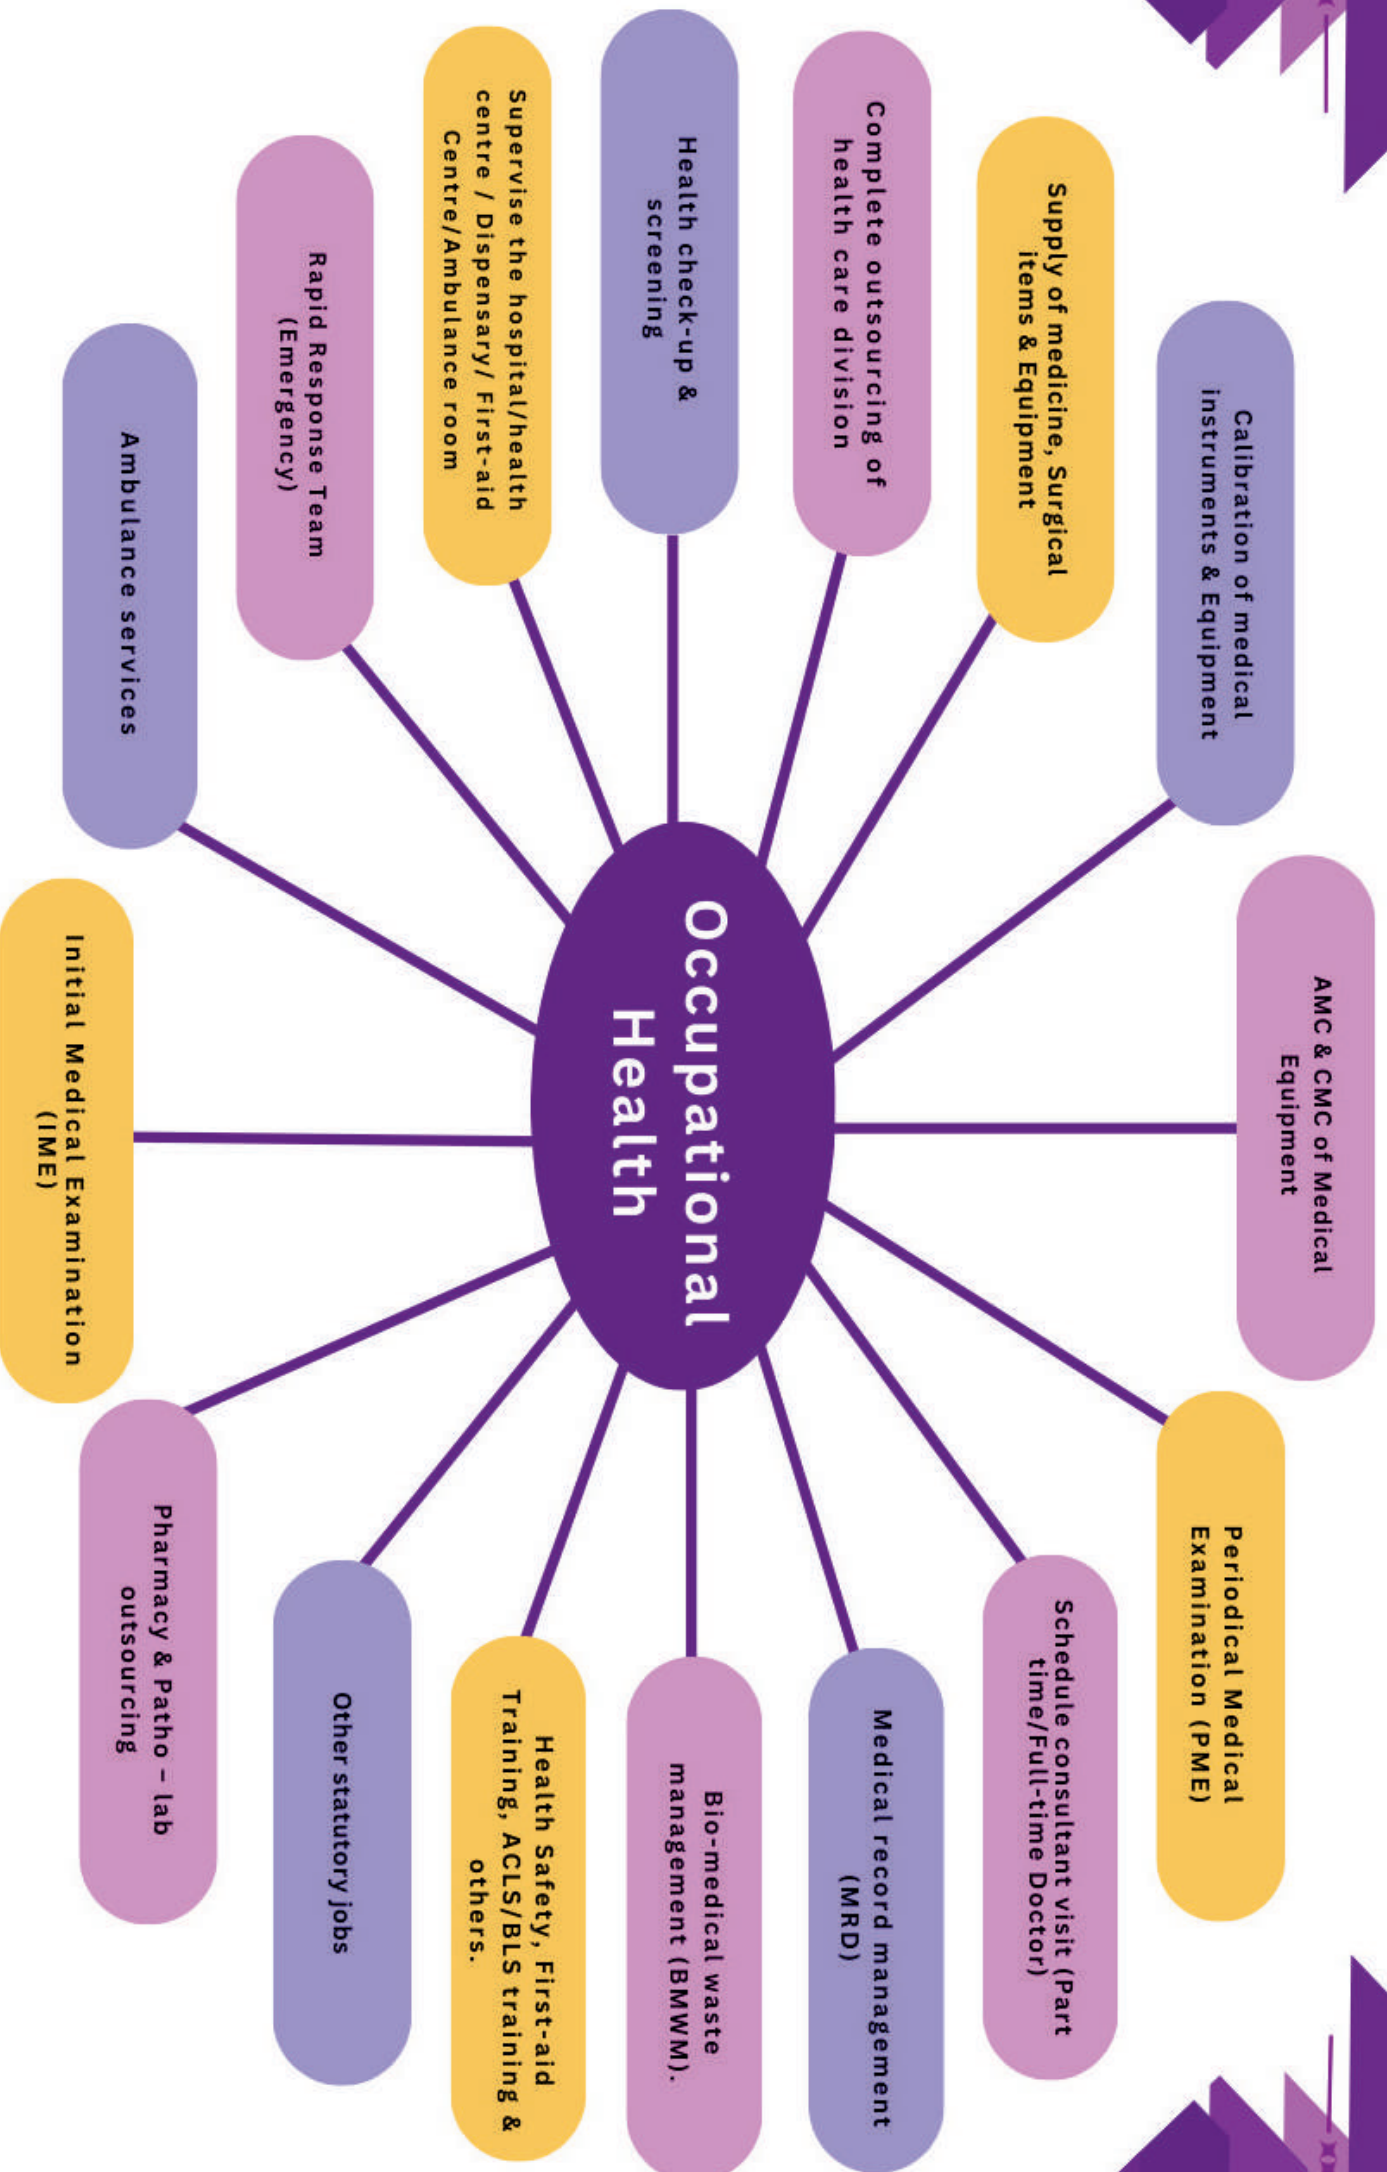

CSR Related Service

Corporate Social Responsibility (CSR) is crucial for a corporate firm for several reasons. Embracing CSR demonstrates a commitment to making a positive impact on society and the environment, going beyond just profit-making.

Here are some key reasons why CSR is important for a corporate firm:

- Enhanced Reputation and Brand Image
- Increased Customer Loyalty
- Employee Engagement and Retention
- Risk Mitigation
- Access to Capital
- Long-term Business Sustainability
- Positive Community Impact
- Innovation and Competitive Advantage
- Regulatory Compliance
- Global Impact

Supply of medicine, Surgical items & Equipment

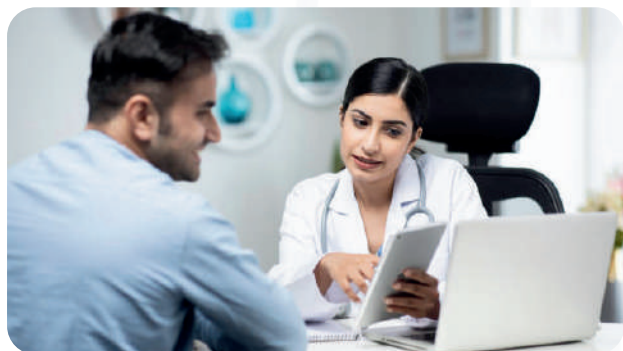

We can provide only genuine manufacturer's product, which are in international standard (IP/BP). We can supply almost all the molecular groups (combined & single molecules). We deals with the manufacturers like Sunphar , Aurobindo , Cipla , Lupin , Dr.Reddy's , Cadila, IPCA , Glenmark , Intas , Zenith Health, Alkem ,

Torrent , Mankind , Biocon , Piramal , Abbott ,TTK Healthcare , Alembic, Glaxo Smith Kline, Sanofi India, Pfizer, Ajanta Pharma, Wockhardt, Astra Zeneca, Unichem Lab, FDC, Orchid Pharma, Novartis Ind, Lincoln Pharma, Gufic Bio, Bharat Immuno, Serum India, etc.

We can also supply the surgical instruments, hospital furniture, dressing items, first-aid kit, sterilizer, FMCG products, and mannequins for training purposes and other essential items.

Schedule consultant visit (Part time/Full-time Doctor)

It's really difficult to afford a specialized doctor in the rural location. Most of consultants refuse to join in the remote location due to communication and socio economical condition. Our organization is associated with physicians and many specialised & super specialised

doctors like (MD Medicine, MS General Surgery, Orthopaedic surgeon, Dentist, Immunologist, t Intensivis and others). Gastroenterologist, Endocrinologist, Psychiatrist, Urologist, Nephrologists, Gynaecologist, Dermatologist, Geriatriist, Rheumatologist, Paediatrician, Oncologist, Neurologist, Ophthalmologist, ENT Specialist, Pulmonologist, Cardiologist,

Health check-up & screening

During a health check-up in the OPD, patients undergo a series of examinations and tests to evaluate various aspects of their well-being. These assessments typically include measurement of vital signs such as blood pressure, heart rate, and body temperature

Additionally, doctors may review the patient's medical history, discuss any existing symptoms or concerns, and perform a thorough physical examination.

Pharmacy & Patho – lab outsourcing

We have a exclusive team for managing the pharmacy. The complete operation is monitoring by the central Pharma software which is looking after the stock, indent, in-our ratio, billing and other record. We taking care of drug license and thoroughly companion with DC Office. We are associated with many leading pathlabs & research units so that; we can able to do all the Hematology, Cytology, Bio-chemic, Histo-pathology, Culture Sensitivity (C/S) & other testes with accuracy & in time.

Complete outsourcing of health care division

We have vast experience to run the hospital/health center/first-aid center/Ambulance Room. We can run the institutional health care system independently with all statutory compliances. Complete health care out sourcing project is easy to monitor and client can concentration on their production only. Client must be assured that our health services managed in exports hands. We can provide Doctors, Staff nurse, Pharmacist, lab- technician, X-Ray technician,

Physiotherapist, Clinical Psychologist, Dresser, Pt attendant, Ambulance Driver, House-keeping and other supportve staffs . This operation is in a minimal chargeable basis which may complete a billing period of month. Comparison of the quality of service, it'll be cost-effective and easiest way to get the health care service. Only the infra structure should be provided by the client; all statutory requirement supplied by us. We can help to get the other medical related permissions like, PNDDT, Clinical establishment, OPD clinics, mobile health units, drug license, pollution control board clearance, bio-medical waste management clearance and Atomic energy regulatory board clearance etc.

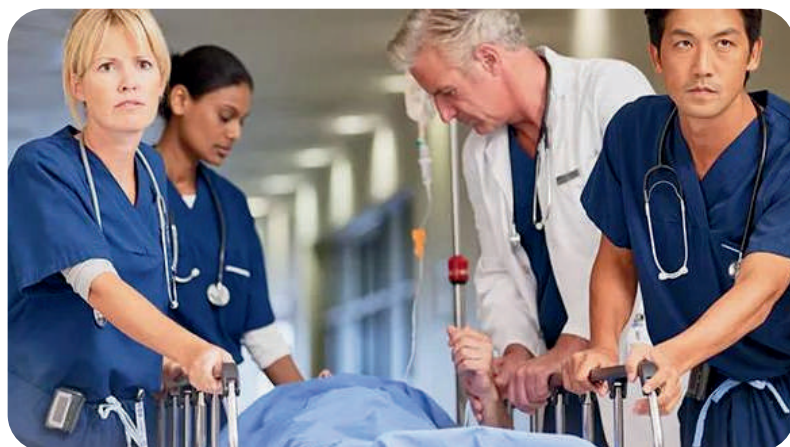

Ambulance services

We can provide round O'clock ambulance service. All ambulance drivers are well trained by the American Heart Association to give Basic Life Support (BLS). All types of ambulance we can provide i:e (Basic life support ' BLS', Patient transport, Mini, Isolation ambulance, Advance life support ambulance 'ACLS', Air ambulance, Rapid

organ recovery ambulance, Paediatric transport ambulance, Mortuary Ambulance and Emergency Medical Service 'EMS' ambulance) etc.

Rapid Response Team (Emergency)

That's great to hear! Having a rapid response team for medical emergencies can be incredibly valuable in providing timely and potentially life-saving care to your clients. These teams are often comprised of highly trained medical professionals who are prepared to respond quickly and efficiently to a wide range of medical emergencies. This team is working by following a proper SOP from call of emergency to stabilise /

mobilise the patient to higher center. It's important to regularly train and update the skills of the rapid response team members, ensure clear communication channels, and establish protocols for their response to different emergency scenarios. By doing so, you can optimize the effectiveness of the team and enhance their ability to provide excellent emergency medical care.

Supervise the hospital/health centre / Dispensary/ First-aid Centre/Ambulance room

The non-medical departments play a crucial role in the overall functioning and support of the healthcare facility. These departments ensure that the hospital operates efficiently and provides the necessary infrastructure and services to support patient care. Here are some common non-medical departments found in hospitals, i.e Administration, Finance and Accounting, Information Technology (IT), Human Resources (HR), Facilities Management,

Housekeeping and Environmental Services, Patient Registration and Admission, Medical Records and Health Information Management, Marketing and Public Relations, Legal and Compliance etc.

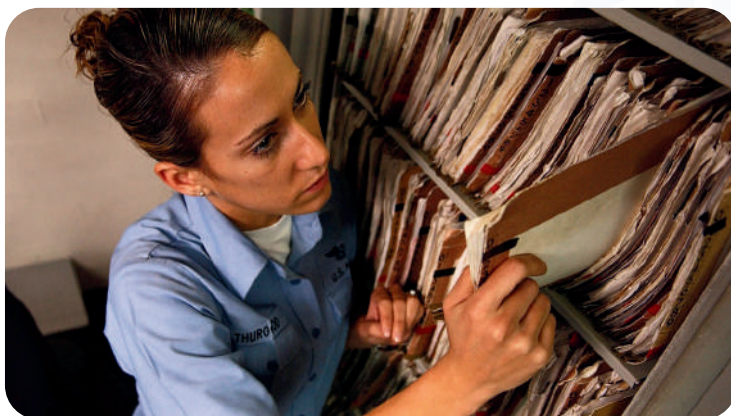

Health Safety, First-aid Training, ACLS/BLS training & others.

We can organize the First-Aid training programs, Fire safety management, Industrial safety, Construction Safety, Oil & Gas Safety, Electrical Safety Audit & Other industrial safety orientation certificate courses. We associate with Red-cross, St John Ambulance,

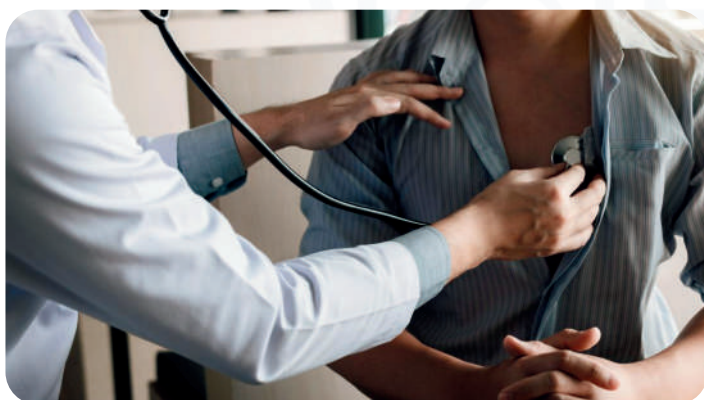

American Heart Association (AHA), Occupational Safety and Health Administration's (OSHA), National CPR Foundation (NCPRF), Medical Education Accreditation (NHCPs) etc. We can issue the following certificates after the training, (CPR/AED, First-Aid, Bloodborne-Pathogens BBP, BLS, ACLS, and PALS etc.)

Medical Record Department (MRD)

We organize all documentation safe & square. We have a centralized record room which helps to keep the patient details from registration to discharge. It'll help to provide the records by soft-copy like Pt name, address, age, sex, family history, any disease history, previous diagnosis, marital status, obstetric history, medication given, procedures and other data, which is very helpful to diagnose the patient & treatment.

Initial Medical Examination (IME)

The purpose of the IME is to evaluate the individual's overall health, identify any existing medical conditions or disabilities, and assess their fitness for the specific job requirements. The IME helps ensure that the prospective employee is physically capable of performing the job duties safely and effectively. We engage well-equipped and advanced tool-kit,

which is helpful to examine the appointed employee. It plays a very important role to prevent any epidemic or any health hazards.

Periodical Medical Examination (PME)

Periodical Medical Examination (PME), also known as a periodic health examination or periodic health check-up, refers to a comprehensive medical assessment that individuals undergo at regular intervals to monitor.

their overall health and identify any potential health issues early on. PME are often recommended by healthcare professionals as a proactive measure to promote wellness and detect diseases or conditions in their early stages when treatment is more effective. The frequency and specific components of a PME can vary depending on factors such as age, gender, medical history, family history, and individual risk factors.

Bio-medical waste management (BMWM).

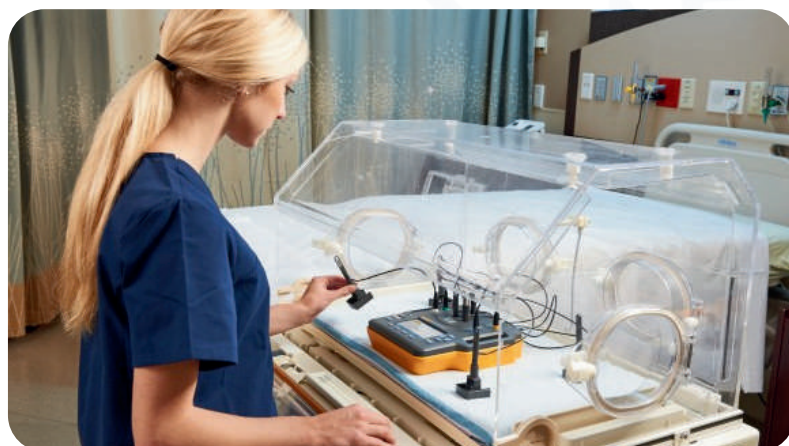

Biomedical waste management, refer to the proper handling, treatment, and disposal of biomedical waste generated in healthcare facilities. Biomedical waste, also known as medical waste or healthcare waste includes various types of waste materials generated during medical procedures, research, or the diagnosis, treatment, or immunization of humans or animals. Effective BMWM is crucial to prevent the spread of infections, protect public health, and minimize environmental hazards.

Improper disposal of biomedical waste can pose significant risks, including the transmission of infectious diseases, contamination of water and soil, and injury to healthcare workers or waste handlers. Overall, effective biomedical waste management is crucial to safeguard public health, protect the environment, and maintain the safety of healthcare workers and waste handlers.

We'll taking care to get the statutory compliance related to BMWM from State Pollution Control Board.

Calibration of medical instruments & Equipment

Calibration of medical instruments and equipment is of utmost importance in healthcare settings. It ensures that these devices consistently provide accurate and reliable measurements, which are critical for diagnosis, treatment, and patient care. In summary, the calibration of medical instruments and equipment is vital for accuracy, patient safety, compliance, performance monitoring, legal considerations, quality assurance, and cost efficiency. It ensures that healthcare professionals can rely on precise

measurements, enabling them to provide the best possible care to their patients. We associated with some organizations which can provide the calibration certificates of the medical devices

AMC & CMC of Medical Equipment

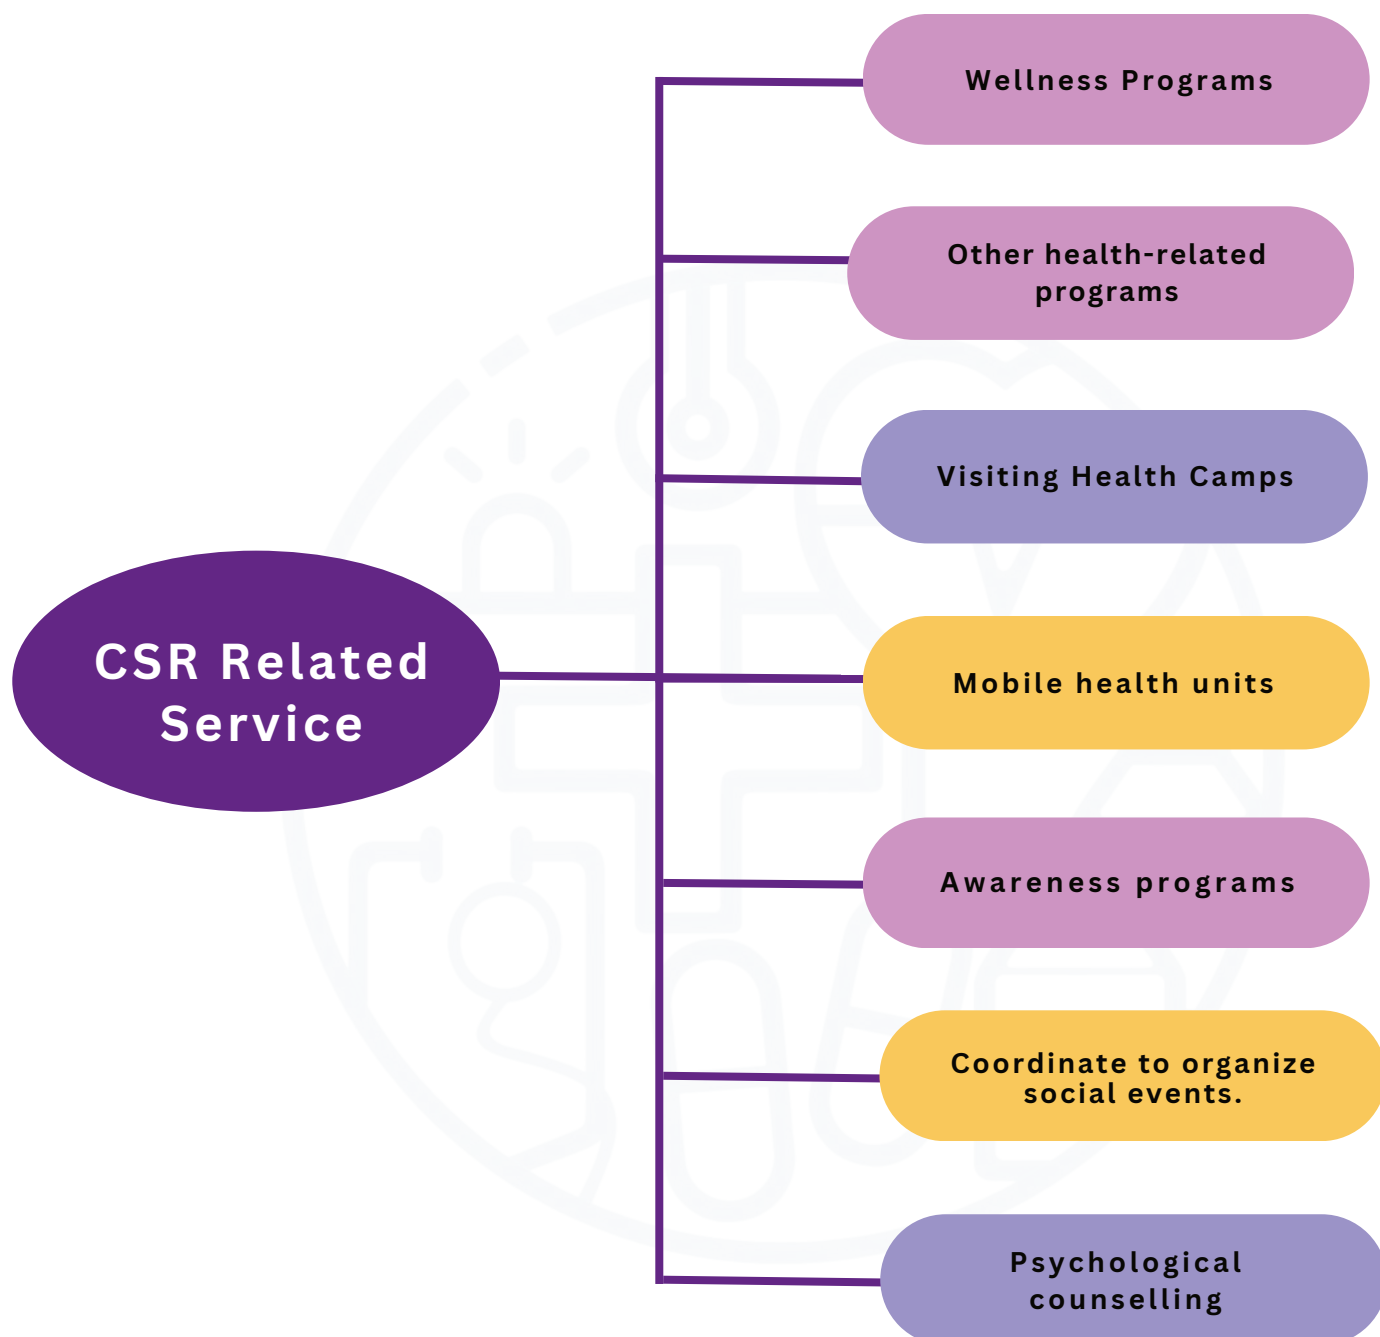

AMC stands for Annual Maintenance Contract, and CMC stands for Comprehensive Maintenance Contract. Both of these terms are commonly used in the context of medical equipment maintenance. An AMC is a service agreement between the equipment owner and the maintenance provider, usually the manufacturer or an authorized service provider. Under an AMC, the maintenance provider agrees to perform regular maintenance and repairs

on the medical equipment for a specified period, typically one year. A CMC is an extended version of an AMC. In addition to the services covered under an AMC, a CMC typically includes the replacement of parts and components that wear out or fail due to regular usage. It provides comprehensive coverage for maintenance, repairs, and parts replacement. A CMC offers more extensive protection for the equipment, ensuring that it remains in good working condition throughout the contract period.

Other Statutory jobs

Once you become a part of our network, we assume your responsibilities. We specialize in offering essential solutions to address the occupational challenges you face. Our committed and empathetic team prioritizes the well-being of our clients. Your health and financial prosperity will be under our vigilant care, ensuring comprehensive occupational health support.

Visiting Health Camps

Our teams comprise of a group of qualified doctors, lab technicians, staff nurses, first-aiders, paramedic teams & other related staff. Our forte is also to provide health care facilities for industrial locations & remote regions. Our organization is actively involved in CSR and health care related activities for the benefit of the rural population in the peripheral regions. We provide necessary medical guidance in the areas where quality hospitals and doctors

are scarce as there are many people in these areas who are in need of essential healthcare services. Our objective of conducting health camps is to create awareness of general health among the people, provide general health care services and counselling them on basic healthcare and hygiene. Our teams create health corridors around the concerned areas as per the project scope provided to us by our clients.

Mobile health units

Bringing Care to Your Doorstep". We have a state-of-the-art Mobile Health Unit. It's a vehicle which is equipped with cutting-edge medical technology and staffed by experienced healthcare professionals, all focused on delivering convenient and accessible healthcare services directly to your community. With Key Features of: Expert Healthcare Professionals, Convenience and Accessibility, Cutting-Edge Technology, Community Outreach, Personalized Approach.

Take control of your health and experience the convenience of our Mobile Health Unit. Stay tuned for our schedule, as we will be visiting neighbour hoods near you. For more information or to book an appointment, please visit our website [<https://drbholahealthcare.com>], call [7440074411/99], or follow us on social media. Together, let's embrace a healthier future, one community at a time.

Awareness programs

We are very affectionate with the patients. Our team members are comfortable with the local language which is very easy to convince how to take the medicines. Patient always wants to communicate their complications using their mother-tongue. That's why they are unable to express their feelings properly in front of the

physician. It's really difficult to diagnose the disease and manipulate the treatment protocol. We can organize the campaign, competitions, awareness camps, vaccination camps and socio-cultural programs: which are very effective to prevent various infectious & contagious diseases. Once we develop health conscious in society; It'll very easy to decrease the fatal-rate and other unusual death.

Psychological counselling

That's an interesting and unique approach to providing psychological counselling. Plant and mine workers often face challenging and demanding working conditions, and it's important to address their mental health and well-being. Psychological counselling can offer various benefits to plant and mine workers. Here are a few ways it can help: Trauma and PTSD support, Emotional support, Coping with change, Work-

life balance etc . When offering psychological counselling to plant and mine workers, it's crucial to have trained professionals who understand the unique challenges and dynamics of these industries. Collaborating with relevant stakeholders, such as plant management or unions, can also help promote the accessibility and effectiveness of the counselling services. Remember to consider the specific needs and circumstances of the workers you aim to support,

as their experiences may vary based on factors such as the type of plant or mine, geographical location, and cultural background.

Wellness Programs

We believe that true well-being goes beyond the physical realm. We understand that a healthy and fulfilling life encompasses various aspects, including mental, emotional, and spiritual wellness. That's why we are delighted to introduce our comprehensive and transformative Wellness Programs, designed to nurture your overall well-being. Coordinate to organize social events

We understand the significance of social events in bringing people together and fostering a sense of community. Whether you're planning a corporate gathering, a charity fundraiser, a milestone celebration, or any other special occasion, our dedicated team of event coordinators is ready to turn your ideas into extraordinary experiences. We can conduct CSR activities, corporate events, Public hearing, Public events etc. Our team work in SOP basis i.e Event motto,

Targeted audience, Professional Expertise, Tailored Event Concepts, Seamless Execution, event logistics, Vendor Network, Unparalleled Creativity, liaisoning ,etc Let us take care of the intricate details while you sit back and relish the joy of hosting an unforgettable social event. At Dr.Bhola Health Care. We are committed to delivering excellence, exceeding your expectations, and ensuring that your guests have an amazing time.

Other health-related programs

We are providing complete health care out-sourcing. There are numerous health-related programs available that cater to different aspects of healthcare; such as Exercise and Fitness Programs, Weight Loss Programs, Smoking Cessation Programs, Mental Health Programs, .

Chronic Disease Management Programs, Employee Wellness Programs, Health Promotion and Education Programs, Rehabilitation Programs, Wellness Retreats and Spa Programs, epidemic disease awareness Programs, Health Hygiene Programs, Social survey Programs etc. These are just a few examples of the wide range of health-related programs available. The specific programs and their availability may

vary depending on your location and the resources in your community. It's always recommended to consult with healthcare professionals or conduct research to find the programs that best suit your needs

More About Us

Welcome to My Cure Mate - Your Comprehensive Medical Care App

At My Cure Mate, we believe in revolutionizing healthcare accessibility by bringing a comprehensive range of medical services and products to your fingertips. Our dedicated medical app is designed to cater to all your healthcare needs, from top-notch medical services to a wide array of medical products, all conveniently accessible through your smartphone or device.

Our Vision:

Our vision is to bridge the gap between individuals and quality healthcare services. We understand that finding the right medical care can be challenging, and that's why we're here to simplify the process. Through cutting-edge technology and a user-friendly interface, we aim to empower users to take control of their health journey.

Our Services:

From physiotherapy to specialized medical consultations, My Cure Mate offers a comprehensive range of medical services that can be scheduled and accessed through our app. Need a physiotherapy session after a sports injury? Want to consult with a specialist for a second opinion? Our platform connects you with experienced healthcare professionals who provide personalized care from the comfort of your own space.

Medical Products:

We go beyond just medical services. My Cure Mate also features an extensive selection of medical products, ranging from home medical equipment to wellness and personal care items. Whether you require mobility aids, daily living essentials, or wellness products, our curated marketplace ensures that you have easy access to high-quality, reliable products.

Why Choose My Cure Mate:

- 1. Convenience:** Our app eliminates the need for multiple appointments and trips to different medical facilities. Everything you need is just a few taps away.
- 2. Expertise:** We collaborate with licensed and experienced healthcare professionals to ensure that you receive accurate diagnoses, effective treatments, and expert guidance.
- 3. Variety:** Whether you're seeking physical therapy, mental health counseling, or medical products, My Cure Mate is your one-stop solution.
- 4. Personalization:** We understand that every individual's healthcare needs are unique. Our services and product recommendations are tailored to your specific requirements.
- 5. Privacy:** We prioritize the security and privacy of your health information. Our platform employs the latest security measures to keep your data safe.

Join Us in Your Health Journey:

My Cure Mate is more than an app; it's a partner in your health journey. We invite you to download our app, explore our wide range of medical services and products, and experience a new era of accessible and convenient healthcare. Your health is our priority, and we're here to support you every step of the way. Welcome to a healthier, happier you with My Cure Mate.
